

Devendra Barkhane

Good Programmer & Web Developer

✉ devendrabarkhane180@gmail.com 📞 07415948894 📍 Bhopal

Education

Bachelors of Technology

Aug 2018 – Jun 2022

Oriental Institute of Science and Technology, Bhopal

Internship

Full Stack Development (Intern)

Apr 2023 – Present

Codemeg Soft Solution, Indore

* Participating in a comprehensive Training Internship program on full stack development technologies including HTML, CSS, JavaScript, ReactJS, NodeJS and MongoDB from Codemeg Soft Solution (Indore).

* Collaborated with senior developers on live projects, actively contributing to the development life cycle and gaining firsthand exposure to real-world scenarios

Projects

Worked on Live project

Developed a live project during internship focused on creating a user-friendly webpage for a hospital.

- Developed a client-requested webpage from Figma designs using HTML, CSS, and JavaScript.
- Utilized Reactjs framework to enhance the webpage's interactivity and performance.
- Actively participated in team discussions and contributed to problem-solving and decision-making processes.
- Gained practical experience in project management, requirement analysis, and client communication.

Created Netflix Clone using MERN

During my internship, I had the opportunity to work on an exciting project where I designed and developed a Netflix-inspired web application. This project was an immersive learning experience that allowed me to apply a wide range of front-end and back-end technologies, as well as essential web development concepts.

Technologies: Front-End Development, React.js, Back-End Development, Database Management, Firebase Integration, API Integration, Authentication, Responsiveness

DWEB – (Dockers Web)

We have provided an online space where developers can login and work on different Operating Systems(Centos/Ubuntu/fedora) and choose the features like cloning of projects via github link as they can choose the environment according to their need. Product reviews and rating and more.
